New case

Elizabeth Grant
25.44 22nd St
East Elmhurst NY 11370
718-812-1910

I would like to start by asking if the Court would supply me a lawyer to help with the case or I can continue the case pro se.

I would ask for a new judge who is not bias and did not handle any of my cases before.

Since Judge Mastoff and Judge Chen had derogatory commentary concerning my lawsuits I would ask for a brand new judge handling my case that has never handled my cases before.

I need a judge for these situations covering corruption, fraud, malpractice, medical billing fraud, guardianship scams, elder and neglect etc.

This is a wrongful Death lawsuit involving pain and suffering and character assassination as well as Elder Abuse and negligence by Project Guardian, New York Presbyterian - Flushing Elmhurst Men care center and Elmhurst Assisted Living.

On November 26, 2021 Grace Grant was illegally removed from her home by Adult Protective Services for absolutely no real reason. There was no recent order of protection, no reason for the Abduction. Elderly people with property are targets. Thank you services allowing this fraud and corruption.

The order that Judge Bernice Segal Signed was completely fraudulent
How can Social Services Overrule
Doctors saying Grace Gont was capacitated
She could read, hear some, walk and
in essence for 3 years she took care of
herself till the malpractice of Dr Ayay
(I'm never at the hospital) Jan

Sealing a record should be illegal and
Tanya Abbott Williams PC Down this is where she
was Grace Gont's lawyer supposed to be
promoting her capacity that was REAL
not hiding it

Well this gave Social Services the ability
to ignore the doctors and court evaluator
saying Grace Gont was capacitated and just
RAILROAD Grace Gont into a corrupt Guardianship
to steal her freedom, money, belongings, property
and life

What is the point in having a hearing with
Testimony from Doctors and Court Evaluators
if the Record will be hidden with a
Sealed record and Grace Gont was going
to corruptly and fraudulently put in a guardianship
anyway. This is obscene and seems illegal.
Now more situations that seem

53
18F69

quite fixed would include the fact that people that never met or knew my mother Grace Gont or absolutely anything about her case have written an order that determine the prison like effects of the rest of her life at the age of 83 for men.

These people are covering for the fraud and corruption of removing Grace Gont illegally from her home in Bardonia, illegally attacking a home owner and trying and succeeding in taking over all her money, social security, bank accounts, ~~PROPERTY~~ and her entire life to lock her "in" permanently. So Grace Gont will never see the light of day from the date of 11/26/21 locked in with all her money taken. A penniless prisoner. Avarice, malicious, purposeful premeditated act of New York City social services working with their friend Judge Bernice Segal who will sign off on anything they write as long as they profit even if it is from the demise of Grace Gont.

So Honorable Sylvia O Hinds Radin who never knew Grace Gonts case or Grace Gont had no legal right to

Pg

who
Cordona Grace Gant was capacitated and
this was said by doctor on the court
record and the court evaluator - and
in reality poor Grace Gant to an
imprisonment of No money looked in
and miserable with none of her conveniences
and limited time with her Daughter while
she really enjoyed and loved being with
Martha a Calhoun special assistant
corporate counsel and Nicole Negron
of counsel NYC Dept of Social Services
had absolutely no right legally to
determine Grace Gant's Capacity. They
were not DOCTORS BY any
MEANS so who are they to judge
who is capacitated or not on
a SEALED RECORD Hiding Fraud
and Corruption.

This is an abominable takeover
of Grace Gant's constitutional
rights and her life like the days of the
nazis with a flash back to a communist
society where people do not own land
and the government controls their property
and wealth. Taken over someone's life like an
Oneto Grace Gant is Elder abuse and taking
advantage of an elder.

P7

Judge Bernice Segal had no right to go along with this order by individuals with no familiarity to Grace Gont's case so they obviously did not have Grace Gont's Best Interest. Locking her in and taking all her money would just cause Depression or Death.

I put forth a guardianship only to get my mom out of a SIX MONTH LOCK IN at Emory Hospital where Grace Gont wasn't sick but Emory Hospital was producing medical Billing fraud "holding her there as a prisoner as social services were waiting for a Guardianship hold on Grace Gont."

I was trying to free my mom to be with me and be happy like my last motion for my mom to happily move to a new home in Pennsylvania and receive 24/7 home health aid care so she would not be the locked in "permanently prisoner" that made her so unbelievable alone and miserable.

The order for a permanent guardianship is fraud on the court if the record stated by doctors and the court evaluator stated Grace Gont was competent. Article 81 states only incapacitated people can be held in guardianships so this guardianship on Grace wasn't legal.

Charity the Dietician at Elmhurst
Care Center should have followed up on making
sure Grace Groat ate. Grace Groat entered New
York Presbyterian on August 9th concerning Grace
Groat's reaction to starving to death and
malnourishment as well as dehydration caused
by abuse and neglect at Elmhurst non cure center.
This was a full destruction of Grace Groat's body
and mind cruelty that is unacceptable and this

The drugs given at Elmhurst Non Cure
Center were just as hard as the drugs given at
New York Presbyterian and these would totally
deteriorate Grace Groat's body.

Grace Groat didn't want to eat or
move and drink to much because her Diaper
has never changed and the pain of the festering
bed sores for Grace Groat was really over
bearing. Grace Groat looked to a bed without
alarm going off if she got up that she didn't
need this imprisonment, it's cruelty. Grace
Groat was denied her walker and by locking
her to bed her walking would stop = ✓
Could anything be more abusive than that

* Elmhurst non cure center never answered the plan
April 11 pro nurse manager chet S. Hapit knew she would
do whatever they wanted with Grace

Pg

Grant and I was not allowed to be part of a team to help Grace Grant because the Guardian Donelle Hawkins Lazlo Pault had barred them from speaking to me. I was according to the order she could not do. I was only trying to help Grace Grant have her personal needs met in good faith while Donelle Hawkins Lazlo Pault seemed to be just trying to hurt my mother and ruin her health, mind, body & spirit into the ground! This is Elder Abuse and a con artist mentality hoping to destroy Grace Grant and expropriate her of her house to gain more assets.

Ms Mohammed Social worker completely stalled and put off any further conversations to help my mother with her health. I was completely refused to have any more conversations ever concerning how to help my mom.

O This ill care of shutting me out of my mother's care team to help was reinforced by Sonrayed Lewis Nurse Manager who said I will never speak to you again concerning your mother's health. First of all I don't want to, second of all Donelle Hawkins

P.10
of 81 of 81

Laurel Panto has told this family not to speak to you at all

So Danielle had completely donated Grace Grant's helper from helping to even though I knew Grace Grant like a book and could aid her care completely that is why I wanted to be her home health and myself and I know I would have been a successful one with making my mom my first priority and jumping where she needed something

Readily Grace Grant should have been immediately removed from Elmhurst Non Care Center because the oxygen was off by her first day and her walking was accurate for her age

No physical therapy could or did improve her walking as seems walking like a normal elderly person who needed a walker. Lying her to a bed would end her walking later

So Alla Bhatia and San Pahl and Ananya and Sanjeet Kaur Soga who had no reason not to let Grace Grant return to her room at Elm York Assisted Living because she did not need any oxygen to stay at Elmhurst non care center

P11 of 84
of 11

The only reason why Grace Gont was forced to stay at Elmhurst Non Care Center was to perform the scam of the first scamers were the same for both and in reality Emily assisted Lucy would keep her stuff in her room and pay herself for the room like:

(Emily) even when she was there her social security would be faked by these nursing monsters not allowing Grace Gont to even have her belongings her walker, hearing aids, glasses, research cell phone clothes and antibiotics stuffed in bags - Pure premeditated thievery.

Now the other side of the medical billing fraud scam was that Grace Gont's insurance would be billed at Elmhurst Non Care Center while the other part of the scam is whether Grace Gont needed to go to the hospital should be going because both Emily assisted Lucy and Elmhurst care center were getting a cut back from the hospital.

This fraud should not be tolerated because Grace Gont had to stay in Elmhurst non care center locked to a bed with none of her belongings

71
Important Points showing the
Illegality of Grace Grant's
Case and her Neglect and Abuse

1) Grace Grant told me she sat in a T-shirt and a dirty Diapers for 3 days with no gown or cover and was freezing - This was when she first got to Elmhurst Non Care Center. Her oxygen was removed. I was told by Simranjit Kaur Nursing Manager the first day so in reality she was suppose to be sent back to Elm York Assisted Living but instead to Double Dip Grace Grant money she was kept at Elmhurst Non Care Center to bilk her insurance providing medical billing fraud because Elm York Assisted Living were still paying themselves.

2 Yossi Krauss held a conversation with me and I told him as proxy and guardian of Daughter if Grace Grant is off the oxygen you have no reason to keep her at Elmhurst Non Care Center so

P13
of 71 of 71

I hoped that and legally since
Eln York Assisted living took her
money that month July they were
obligated to send her back and stop
producing medical billing forward
Keeping Grace Grant and walking issue
when her walking was not a problem
Grace Grant never fell so she
shouldn't be punished not being
allowed to return to Eln York Assisted
Living where her comfort belongings
were and legally if money was taken and
that is where her glasses, walker, hearing
aids, rosary, cell phone and clothes, became
missing or stolen and disregarded because
Grace Grant was being 'disregarded as
a human being with needs, wishes
and Constitutional Rights to be
treated with Respect not
taking her medical insurance and
throwing her out of Eln York
Assisted Living with out A good
Legal Reason. This is

Grace Grant is Not Removed from Eln York Assisted Living
Remaining Grace Grant from her home
3) on 11/26/21 was a felony and

PIG
of 11/06/24

treason placing handcuffs on an elderly woman to drag her out of her home and down the stairs harshly to hurt her as seen on body camera footage was a CRIME OF the 115th Precinct that they feel was covered by Grace Gont's Death to get rid of the Illegality of the Case and the Guilt that Dragged Grace Gont out of her house to begin with Social Services Adult Protection of course for no reason Entering Grace Gont's home without a warrant Stealing her pets and dragging her down the stairs without a walker shows complete Elder Abuse and abuse of authority and power, and this act was ILLEGAL!

- 4) I ~~couldn't~~ call all day the 6th Floor - no one answers the phone at Embury Hill Care Center. No one tells Grace Gont. I called ~~and~~ ^{and} ~~she~~ ^{she} won't get her the phone near her bed to make and receive phone calls.
- 5) When Grace Gont is able to grab the phone in the Room before it

p. 15
of 71 of 67

is moved away from her maliciously
Grace Grant so she can't reach her floor
water (she needs because her mouth
dries out and she has sinusitis and not
having water for Grace Grant would not
only be complete discomfort but also
a health hazard of quick dehydration for
her.

6) But to get back to my phone call where
Grace Grant was able to reach the phone
I was told of the multitude of drugs
- medicines being given Grace Grant but no
meals were served regularly. Sometimes
they forgot to serve her a meal or
didn't give her a substitute meal
when she couldn't eat the Indian food
or beans and tacos they provided
wrongly to an Elderly person with a
sensitive stomach taking stomach medicine daily usually.

7) I tried to stress to anyone when they
picked up the phone to give Grace Grant
sandwiches which she pretty well
could digest from my dealing with
picky eater Grace Grant.

8) I told Elmhurst Non care center to tell

Grace Grant the beginning of August that I would be there within a little over a week or two. Coincidentally, Grace Grant seemed never to find this out from when she could grab a phone. ~~Every~~ So that I had come to my cell left already at Elmhurst Care Center. I could not even talk to Grace Grant long enough to give her a mess of a call and wouldn't tell her. ~~For~~ The few times I got these busy lines to pick up a phone that I would be to see my mom by mid August but ~~couldn't~~ ally Elmhurst Care Center wanted to get rid of the problem of Grace Grant's situation and abuse and negligence with no change changing, no phone, no help her belongings like, hairbrush, hairbrush, clothes, ~~brushed~~ and a ~~hairbrush~~ - All also included with and stored along with her self phone I gave her also. It was obvious Elmhurst Care Center was trying to shift the problem they created by moving her to New York. I hope they are back to 70th Street but I'll get out of her in Elmhurst. Love and care.

for no reason but to blk her medical insurance to begin with

- 10) Right now Grace Groat's Body is missing and no one can tell me where it is. They are hiding Grace Groat's body. The hospital won't tell me which place picked her up. To enforce the hierarchy the cemetery where her plot is and family stone St Charles has said no one called for Grace Groat's burial so her Body is missing.

- 11) A quick removal of Grace Groat's Body was needed for ~~the~~ autopsy because this would uncover the overdugging that caused her breathing and feeding machines out of place after 2 weeks of being in the hospital without machines. Overdugging wasn't needed, Care was needed. Feeding given edible real food that Elderly people can eat not Corrugated Soap. Grace Groat would never Eat. No water or obviously at least a more than two because as I said regular drinks of water were needed for Grace Groat's

dehydration due to her severe sinusitis
she had all her life and that is why she
breathed through her mouth

- 12) Being Strangled by Andrew, Nurse
Manager, that I could not visit or have
any part of her caregiving team giving
ideas to help Grace Grant was Illegal
malpractice and against Grace Grant's
Patient Rights that no one would
help me fight for by Patient Services
not picking up the phone and
addressing the abuse and Neglect of Grace
Grant starting with the lockers the pool
in June and the non-diapering of Tashi
Nurse who was neglecting Grace Grant on
starting the Bed Sores that were created
at New York Presbyterian to fester
from urine/feces, non-care neglect and
Physical abuse This hospital New York

supposidly suppled to have from Monday to Friday. When you stop on Elder of 85 walking on a continuous basis there is no way they can perform a walking task regularly. When they have been completely crippled locked to the bed 99.9 percent of the day. This is illegal to purposely cripple Grace Gort using her natural aging of walking as a reason why she should be forced to be locked to a bed. No History in the Records of Elmwood Assisted Living of Grace Gort EVER FALLING SO LEGALLY. If Grace Gort was not brought to the hospital on a walking issue then a walking issue was not legally valid for her to be held on a walking issue and forced to be at Elmwood Non Care Center (with their bad reputation) to bill to misu her insurance causing medical bill fraud saying Grace Gort needed physical therapy when in reality it is a crime to lock an elderly person to their bed to completely impeck their walking.

p20
of 71

13 Another Key Element of the Fraud and mal practice in this case is Ayay Jain Doctor for New York Presbyterian never being on site with Grace Groat to see how the over-dressing was affecting her body so adversely. Ayay Jain I spoke to on his desk job at his office and he hung up on me after saying Grace Groat developed pneumonia over the final weekend at New York Presbyterian hospital.

Now Grace Groat was not given a cover or socks and I personally witnessed her gown up with no sheet on her or cover and her back left to freeze in the unbearably low temperatures of New York Presbyterian hospital. I was freezing at New York Presbyterian hospital. I had on two sweaters and a sweat shirt with my hood up. I was so cold in this unbelievably ignorant hospital full of young people and staff that could not put in the intravenous properly struggling in front of me and

p21 of 71
of 71

Not putting the intravenous properly concerning the hard drugs given to Grace Grant to knock her out is what caused her death most probably. If you read up on these drugs the way the intravenous is put in is crucial to a life and death situation. Not just any nurse can do the intravenous - this is the hard part of the job. Many of these people are not competent or skilled enough to do a still take the job. And if a patient dies, it is a simple casualty to them.

I want a full investigation on the fraud in this case and Andre Nurse/manager determined to cover for the negligent staff who were incompetent at putting in intravenous and being kind and doing the proper job of feeding Grace Grant. Giving her water, letting her sit up because that was the best way for her to breathe and definitely making sure the intravenous was put in properly which it wasn't and could and did kill Grace Grant causing the breathing problems and the need of a machine she couldn't breathe when she came out.

Grace Gont asked Danielle Hawkins Lorch Puerto for her July and August visit to collect money to be released from Elmhurst ^{non} Care Center because she was not being treated well. Not being given food she could eat and not diagnosed her bed sores could fester was on the road to killing her but Did Danielle cure? No complete fraud on Project (Po/Box number) Guerrero

This is total Abuse of Power of Danielle Hawkins Lorch Puerto and complete Disregard of the wishes and needs of the woman she supposedly was hired to help and protect. How does she live with herself being such a fraud hurting Grace Gont. Danielle saw that Grace Gont was deprived her glasses hearing aids, clothes, rosary, cell phone and stuffed animals, these were all Grace Gont owned because she had been dragged out of her house illegally by social services Adult Protective never to return to her house Being dragged out in handcuffs against the law Grace Gont could not grab any of her stuff not knowing she was permanently illegally being dragged out of her house.

~~P12~~

I blame

Social Services for allowing Adult Protective Services to commit this fraud of Kidnapping Grace Grant under color of their own man made situations were not following certain local laws abducting Grace Grant

This must be brought to light and the loss of my mom directly affects me. So I would like to state that this lawsuit will be done at the angle of how all this illegal abuse to my mother has emotionally and physically affected my health.

I would like to express that it is tragic that the Department of Social Services were able to override the doctor say that Grace Grant was incapacitated and still put a incapacitated person in a guardianship to take her money and her life.

Social services should not have been able to make a final decision on Grace Grant they are not the doctor.

Grace Grant passed all mental exams up to her last stay previous to her most recent Detention at New York Presbyterian hospital

Legally if a person is incapacitated they do not have a guardian Grace Grant

of 71 p24 p25 p26

Knew the date, where she was, what was happening to her etc.

The guardianship took my mother away from me and this broke both of our hearts not being together and made life very difficult.

In October of 2022, I bought a house in Pennsylvania, attempting to get my mother to safety and out of a fraudulent guardianship on a incapacitated person.

The problem was Judge Bernice Seigal signing the order of a guardian on incapacitated Grace Grant who saw with glasses, who heard with hearing aids and walked with a walker. Grace Grant was a functional human being destroyed by social services.

In a quote of Grace Grant was that a nursing home would be a death sentence and that is exactly what social services did with Judge Seigal working in cahoots with them.

Basically social services destroyed Elizabeth and Grace Grant's life with a fraudulent guardianship. She is no way healed and in no way helped her.

p25 p26
of 71 of 71

To slow the progression of destruction we have to take a step back that Grace Grant Tanya Hobson Williams who was relieved from the job is July 2022 but kept coming to court anyway working with the Guardian Not keeping Grace Grant who was capacitated out of a guardianship at all. This is against her license and her oath to the court.

When I asked Tanya Hobson Williams for all my missing paperwork which I am required to get she said she had no paper and lied further providing fraud. She immediately when she came on the case sealed the record to hide the fraud on the court and the fraud she would engage in helping incarcerate capacitated Grace Grant who on illegal guardianship on a capacitated person.

Tanya/Hobson Williams put Grace Grant in Elm York Assisted Living. Their motto was "The More you make the more we take." Elm York Assisted Living never gave Grace Grant over one care with a home health aid. You would never see any of the home health aids with any of the charts they had then doing Restroom Duties and house cleaning duties. Do some money and provide the church Billy Evans

Elm York Assisted Living provided no
health and care and care just
people murdering. Into the room with
aerosol cans and spraying and walking
out. This is real medical Billing Fraud

Grace Gunt only needed a sedation
or a pill to calm her down and a low dose
pill and instead she was constantly
sent out to New York Presbyterian hospital

Going to the hospital would
cause Bruce, ~~but~~ Anxiety, stress and
Trauma and this was completely
unnecessary, because this completely

p. 27

p. 27

p. 27

71

threw her care and didn't help at all.

New York Presbyterian hospital in the end of June put Grace Gont with Nurses like Tashi who would make faces and were short tempered and would not change her diaper although Grace Gonts debilitated starts fight how in this narrative because Tashi locks Grace Gont to the Bed even though the toilet is an inch away and makes her use a commode not letting her walk at all so her blood can flow and her heart can pump off she walks ^{slow}.

Then New York Presbyterian instead of sending Grace Gont back to her New York Assisted Living. Instead she is sent to Enhurst ~~Alon~~ Care Center again. Grace Gonts wishes and against Grace Gonts her proxy of choice (most recent 2016 paperwork and for real power of attorney with a power of attorney from Grace Gont 2016 that states if she ever has to be a guardian she would prefer that the Guardian would be her young daughter Elizabeth Gont.

This is where the Neglect and Abuse continues from New York Presbyterian locking Grace Gont to the Bed. Now Grace Gont is locked to the Bed at

PJG
of 30
11

Elmhurst Nor Care Center where she is only offered to have a day 5 days a week to do physical therapy. Which is impossible to do because Grace Grant needed the continual movement of her walker to help her blood flow, heart pump and legs work properly.

I told Elmhurst ^{Nor} Care Center to release her immediately and send her back around the corner to Elmhurst Assisted Living so she could have her freedoms to move around and sustain her health properly.

The SCAM is that Elmhurst Assisted Living is affiliated with Elmhurst Care Center and Elmhurst Assisted Living completely incriminates the client by keeping their belongings there to continue to bill for the Social Security for the care. Grace Grant was not in and the food she did not eat. The guardian project guardian is fully aware and helps Elmhurst Assisted Living Bill for services they are not rendering at all.

Elmhurst Care Center then really hurts their client by not allowing them any of their comfort and necessary items they need to live like glasses, hearing aids, walkers and cell phones, clothes

page 29 of 30
of 30

folletries they are completely and unnecessarily denied.

Grace Gort was supposedly brought to Enhurst Care center because of the fact she needed oxygen but the oxygen was removed the first day she was there. So there was no need for her to remain at Enhurst Nor care center but they came up with the story they had her there for her walking that they obviously wouldn't improve over her age.

The only thing Enhurst Nor care center accomplished was destroying Grace Gort and completely debilitating her.

Enhurst Care center also weren't feeding her properly. She was missing meals and given foreign food like chicken feet and livers because the place had any foreign people in it.

There were no alternate foods or sandwiches offered to Grace Gort. In essence Enhurst Nor care center were starving Grace Gort to death.

There also was no communication with Enhurst Care center and Grace Gort. They refused to write down in Big Letters what they were saying so she

P20 P113
6/27/24 7/1/24

couldn't communicate or answer anything they said and tell them what she would want to eat which they probably wouldn't serve her anyway.

Grace Grant would complain she couldn't move and was locked to the bed. She also told her daughter Grace Grant please talk to them about my food because I am not getting anything to eat, and please tell them to give me my walker, hearing aids, glasses and cell phone and clothes. I am lost without my belongings and my Rosary to pray.

Grace Grant was absolutely depressed, lethargic and miserable. Her prophecy that a nursing home was a death sentence was coming true.

I told the nurse at Bn York assigned to me to please call me twice daily and hand her the phone. And they refused to allow her to communicate with me.

I was told by Ms. Mohammed Social worker and head nurse - that I would not be able to help with my mother's care at all. The guardian blocked me and told Bn York Care Center not to work with me at all even if it concerned Best

health practices for Grace Grist Embury Non-Care center would not allow any input from me to help with Grace Grist's care at all.

So the Guardian was blocking best health practices for Bruce Gort Chot allowing her daughter that knew her allergies and likes and dislikes and how to handle her so she responds positively.

On Grace Grant's chart it read
NPO and thro heart she was being drugged
and her food was not being dispensed
to her or any drink to dry her out into
a catatonic state

This is abuse and neglect and could have been prevented by providing Grace Gont with her walker, hearing aids, glasses, and cell phone to make her phone calls and make her functional and happy. But stripped of her belongings to survive Grace Gont is completely miserable, neglected and hurt by a system of bilking her insurance performing medical billing fraud and malpractice.

Finally Grace Got Ended
Up at New York Presbyterian hospital
for starvation and obvious neglect of her
body by not allowing her to walk or

p34 P11/5
of 67 - 7 pF 30

more freely - locked to the bed and being
not fed properly at all.

Grace Gant is so malnourished and
parched her mouth is hanging open and she is
staring at the ceiling. She is severely drugged

Grace Gant was kept in New York
Presbyterian Emergency for 2 days in a cell for
prophylaxis, no food, no water to be
left staring at the ceiling unable to respond
well or speak freely.

I had told Brinkman Norcascent
when I would be back to NY and they
seemed to dump my work as a problem
on New York Presbyterian hospital. When she
was already badly damaged and was
totally lost without a normal life at home
around and deprived of everything including
her money, hearing aids, glasses, underwear,
cell phone and clothes. All things everyone needs
to live.

New York Presbyterian brought her upstairs
to a room. Reminute to get in the hospital.
Grace Gant was completely neglected with
her mouth dried out and herself not respon-
ding at all. The neglect and abuse
was killing her in a slow, painful
death.

p33 of 71

Immediately I got a new Rude Nurse who something like the name Siri. She continued to be consciously rude to me and uncaring to my mother. I asked for water. I couldn't get it. I asked for a Sandwich to give my mom and Siri couldn't get that for my mother either. Then I asked Siri to change my mother's diaper. I could see how it been changed in days of emergency ward neglect and Siri could not change her diaper either. Siri was a young Indian girl who didn't know how to treat people.

Siri was so small that I asked her to do things. She would not let me stay a couple of minutes extra to try to find another nurse to get my mom water, food and a new Diaper.

Siri finally pouted and said I was rude to her when I wasn't. She was rude to me.

Well when I went to the hospital the next day New York Pres by James Flaherty there was a note on the front desk saying I was illegally from visiting. I was with no court order.

The security guard was rude to say anything when we say go with no explanation why I was banned from visiting.

The next day I called all over
Rehospital - and the same day I couldn't
visit Patient advocates never answered
nor called me back. Social services
never answered or called me back.

What they had done not letting me visit
was completely illegal as the daughter
feared proxy choice of Grace and most recent
2016 And most recent power of attorney
choice of Grace and 2016. Not ED Grant
at all.

The Guardian - cracks - Project Guardian
a PO Box number - never into office
never returning phone calls or answering

even a person or anyone into office.

Well Project Guardian affiliate

to cause me (Grubert Grant), as much
trouble as possible. Saying the doctors and
nurses shouldn't talk to me and she
was making my mom, Grace Grant
final decisions concerning her life and
death.

I produced Proxy and Power

Grant to be her guardian and this
was completely ignored by the

hospital

I had my own private advocate call
But it seems Andrew Fernandez
Nurse Manager himself as Corbesecondy
said, and prejudice as he was had
barred me from the hospital

Andrew Fernandez, Nurse Manager
went out of his way to bar me for days
and then limit me for 2 days for 2
hours and stop my visits on a
crucial weekend for my mom.

My mother, Grace Gort headed
constant visits and needed no break
we lived together our whole life
and were dependent on each other
in the most loving way

Losing her visit with me would
tragically hurt Grace Gort because
she was very lethargic, depressed and
lonely and I would try to

- 1) Grace Grant spoke to the Guardian for Vlt the middle of July and Beginning of August to Please get her out of the Emhurst Care Center and have her go back where she was paying and belonged at Em York Assisted Living.
The Guardian was hired to assist and help Grace Grant not do whatever they want with Grace Grant's money and life.
Danielle Hawkins Karlo Puerto here didn't want Grace Grant to stay. She came to stay her home and collect money.
That is all Danielle Hawkins Karlo 'Puerto' cared about. Definitely not running anything to do with Grace Grant. Neglecting Grace Grant's best interest and blocking her daughter in anyway with everyone so she could help her.
Grace Grant had extreme bed sores from her stay in the New York Presbyt Hospital. These bed sores continued to Emhurst Van Care Center and got worse. Feeding with urine and feces not having regular diaper changes and being locked to the bed so she couldn't take herself to the bathroom.

PJ3

PJ3

locked to the bed really made her a candidate for a heart problem because of this. No food was given regularly and not at all. Sometimes Grace would say, "Also Grace has not offered anything alternative to eat like a sandwich." They also could not even change her diaper nor let her have her own walker to walk to the bathroom.

3. Enhurst Care Center never answered the phone and it was impossible to communicate with them and specifically to get to speak to my mother. Her cell phone was lost and this was her only means of communication. It is cruel and illegal to abscond with Grace's belongings like her walker, hearing aids and glasses, cell phone, rosaries, clothes, stuffed animals etc.

4. My mother's home health aid at Enhurst Mon Care Center was always hostile to her. Round and had at least 15 other clients also for Enhurst care center to save money and provide medical billing.

Frank. The home health aids are hired to go "one on ones" so they can easily fix issues like picky eaters so people don't end up dying from starvation like my mom. This is a critical situation because Grace Gort has slipped through the cracks because no one was properly caring for her and helping her with her individual needs for simple things like eating, drinking and diapering and talking.

5. Leaving Grace Gort without her walks, heavy coats, glasses, cell phone, water and now stuffed animals is completely abusive and neglectful. Grace Gort didn't even have her rosary when praying rosary all day was what she enjoyed doing since she spent her being illegally locked in New York assisted living as a prisoner to being locked to the bed. Unlike even more of a prisoner at Enhurst Care center. The Guardianship never helped, it only hurt Grace Gort, locking her in like a penniless prisoner.

I would like to continue and here in an important issues such as

- a) overdrugging Grace Gont
- b) not allowing Grace Gont to drink
- c) Not allowing Grace Gont to eat and at New York Presbyterian not even trying to feed her or give her drink when she wasn't on any machine with nothing over her mouth. They didn't even try at Elmhurst Non Care center or New York Presbyterian that I observed and they ever admitted to. The doctors obviously wasn't doing their job at all and the health and care nurses and assigned to Grace Gont were not even trying to get her any food, they weren't doing their jobs and didn't care at all. Another casualty meant nothing to them.

- d) overdrugging can lead to Death. It can stop your heart and lungs from working. I immediately asked New York Presbyterian to get Grace Gont off any hard drugs or Psychotropics that would make her unconscious so she couldn't eat. The Hospital Never stopped the overdrugging. Using the Guardian as an excuse saying the Guardian was allowing this abuse of

Grace Groat

~~p28~~
~~of 32~~

e. Don't forget that the bed sores could only be getting worse Grace Groat was never moved from side to side on the bed so she always was lying flat against the bed sores making them worse.

f. I want to stress that the over dragging killed Grace Groat. For days she tried to get the intravenous/VS out of her saying to me it's poisoned they are poisoning me!

The hospital was aware of Grace Groat wishes not to have the IV and they totally disrespected her wishes and patient rights not allowing her proxy of choice (most recent) Frank Groat and not allowing her patient rights not to have the IV. Stewards didn't want and referred to it as poison. The hospital purposely overdoosed Grace Groat and her lungs and heart were put in jeopardy to stop civil and that's why the machine was put on.

g. Over the weekend Andrew Fernandez, Nels Manager made the Prejudice and Illegal decision not to let his help save my mother's life with a visit that would

p41

have made her happy and my voice
songs and happy thoughts might have made
the difference. Also I would have
asked that the IVs come out if
Grace Gort didn't ^{improve} live the hard days
but were dehydrating Grace Gort and
totally giving her no appetite and then
were so hard they were making her
unconscious. Grace Gort fought for
her life.

Grace Gort knew the IVs had
lethal bad drugs destroying her so
she kept reminding the IVs saying in
essence Gort may wish and take her
off so I can live but instead the
viscious staff of young inexperienced
people put boxing gloves on Grace Gort
they called mittens but in reality were
terribly scary and disturbing to Grace Gort
and she tried to get them off with
her mouth pulling on them and banging
on the bed and the answer to the
corrupt, unfeeling staff was just
to drug Grace Gort more so put
her out of it so she would just

~~PAGE~~

leave them alone so they didn't have to do their job or maybe their job is being cruel to elderly Caucasian women and taking their life for nothing then to ask them to do their job and get Grace Gont food and water and change her diaper if needed instead New York Presbyterian felt dragging Grace Gont and leaving her comatose not to bother them was the answer.

The Gonts, Grace Gont's hands were abusive and totally uncalled for and abusive. Grace Gont had the patient right to refuse IV be fed and given water and allowed to walk to the toilet herself if the staff didn't want to change diapers.

Obviously the staff were covering their tracks by putting Grace Gont on Madres. Monday the overdrugs at New York Presbyterian hospital taken to 11 on Grace Gont and probably stopped her lungs heart and breathing and that was when Monday Morning Come and the frantic call from Andrew Fernando came and he said that they would

machines were put on Grace Gont

Since Grace Gont had technically been
killed by overdosing how her body
lay lifeless with a machine forcing
her lungs to go up and down and her
breathing to be over harsh and obvious,
so very painful for Grace Gont
but obviously the doctor Dr. Ajay

ruthlessly doing on Grace Gont.

Grace Gont's vitals were indeed

illegal and murder, Grace Gant shouldn't lose her life over the fact the overzealous greedy Guardian and Son are looking to profit from the demise of Grace Gant who had a life and might have lived longer (which she deserved). If it wasn't for these horrible people robbing her of her money and life.

Caroline Rodriguez had nothing to do with Grace Gant. Yet the hospital said she was the Guardian, a woman who knew nothing about Grace Gant. This is hypocrisy and a crime.

Danielle Hawkins Lurdo Panto was a crook who never ever returned a phone call to me. She blocked me with any help for Grace Gant's care with New York Presbyterian, Elmhurst Non Care Center, and Elmhurst Assisted Living. This is a crime because I could not help my own mother or even have the staff. I

Grace Gant could have
lived happily without a Guardian
putting her money toward what
she enjoyed. Her death is a tragedy
and a really deep murder of her

Melissa Steinberg, Project
Guardian, had no right to take
Grace Gant's life and make
her die, shutting off machines.

Grace Gant had good vitals,
good body temperature, good blood

Melissa Steinberg, from Project
Guardian, did not have the appropriate
paperwork to resuscitate Grace
Gant. This is illegal what she
did, misusing her authority and
power to murder Grace Gant by
shutting off machines and Grace as
a home owner and a way to cash.

Edmond Grant has hid the body not letting me know where my mother was put. This is Illegal and abusive.

Edmond Grant also told the hospital making up lies that I should not be allowed to visit. This is Illegal and defamatory of character.

Not being able to help my mother in her time of need was really cruel to me and my mother and helped end my mother's life because my visits would give my mother hope of freedom. It was my Brother Edmond Grant who had locked my mother in working with the Guardian.

Edmond Grant also falsified testimony testifying against me lying to the Queens Supreme Guardianship concerning issues about her care to implicate in matters that had no proof and weren't true, they were completely contrived by Edmond Grant to cause Doreen Grant extreme trouble.

Edmond Grant has solely only dealt with his mother under monetary issues asking for money in reality he didn't have a good loving relationship with Grace Grant all he was looking for was money. Grace Grant knew he was taking advantage and wasn't fond of his abuse and neglect.

I want to have this case delve into the fact, that there is no real patient advocacy at New York Presbyterian hospital at all I didn't receive a phone call for 2 weeks.

Perith Daphne Gup was able to come in at the end of my mother's life when it was too late.

I was denied visits at New York Presbyterian hospital and had no advocate to help me gain access and trying to help my mom.

This weeks within help in an 85 year old's life can be terminal and that shows the accountability of the negligence and uncaringness of patient advocates in New York Presbyterian who are protecting their inept staff they are not doing the right, legal protocol by the patients at all.

Grace Gout did not want the intra-venous that was in her arms and killing her with over medication she would fight to ~~get off her~~ ~~to live~~. I tried to refer this case to Patient Advocacy who ignored my phone calls for two weeks and in a sense helped in the

83 of 71

Death of Grace Gont.

The reason for patient service
is to advocate for what the patient wants
this a total hypocrisy.

Grace Gont wanted the intravenous
out knowing it was poison and would kill her
The one who Grace Gont did say to me was
"Poison" concerning why she wanted the intravenous
out. Instead of putting boxing gloves on her
it would have been humane and legal to put
Grace Gont on a system of no intravenous
food and water because at that point from
when she first came it was from Starvation
from Elmhurst was care center that both Elmhurst
hospital care center and New York Presbyterian
Flushing could have easily treated Grace
Gont and got her food she liked and change
a diaper and treated her HUMANELY
But this seemed impossible to do.

Now if we go Back to the Beginning

Grace Gont in handcuffs by social services
was a crime. Handcuffs only go on a person
for an arrest. Grace Gont was not
arrested she was kicked out of her own
house illegally. This was covered and

I want to add to the list of people who helped end Grace Gont's Life Sarah at Elm York Assisted Living Social worker who would not let Grace Gont return to Elm York Assisted Living for "no reason". Grace Gont was off oxygen the first day she was at Elmhurst Non Care Center and was totally ready to go back to her room where she could walk freely and get her own food and go to the Bathroom herself. Being barred from what had been her place of residence and home she paid \$1773.00 a month was completely ludicrous. The reason could probably stem from the owners need to produce medical Billing fraud and double Billing Grace Gont's Insurance putting her in Elmhurst Non Care Center.

Sean Tohill is the manager and he also refused Grace Gont's entry back into Elm York Assisted Living. So he also is a cause of her debilitation and being destroyed at Elmhurst Non Care Center not being fed or given water or being diapered. If she would be able to have walked around her room with her walker then Grace Gont would still be here today.

It is loathsome to hide Grace Gont's body. They are afraid of the wrong doing showing in the records. (According with) Grace Gont's body is completely reprehensible and loathsome and deplorable.

This ludicrous hiding of Grace Gont's body in a quick cremation shows how guilty and scared these people - Project Guardian are of working with New York Presbyterian - Flushing is not the best care for Grace Gont. Over Drugging her putting her on machines after the day (stopped her breathing) is complete malpractice and not resuscitating her when she didn't sign Do not resuscitate papers recently with her recent 2016 proxy Elizabeth Gont then any papers had to be signed by Project Guardian. Elizabeth Gont would be ruled out as proxy when Grace Gont only put Elizabeth Gont and Robert Mitchell down not Edward Gont. Grace Gont's Power of attorney also read for Elizabeth Gont to be guardian if needed.

Please help me win a lawsuit suing for at least 25,000 enough to start these people understanding they can lose their jobs when they neglect and abuse an elder.

Any money won by this lawsuit would go to a foundation to help people stuck in Guardianships, Scams, fraud, abuse and Neglect. A foundation that could really help animal abuse of illegal seizures from fraudulent agencies corrupt like the ASPCA who are a kill shelter not a train and rehoming shelter which is what is really needed for animals. Also a fund for families fell victim to a loved ones malpractice from doctors never on site barking out incorrect orders of overdosing and to many intravenous lines that can be harm but to an elderly body. A foundation dealing with the Elder Abuse and Neglect in Guardianships, hospitals, nursing homes and Assisted Living.

I don't even know where Grace Grant's body is how thanks to the Guardian not just absorbing with Grace Grant's money and now Grace Grant.

The cemetery her family is buried at the plot her family in is where she belongs. No one has called the cemetery so putting Grace Grant to an immediate cremation was to avoid an autopsy for the Grand New York Presbyterian Rushing and Dr. Ajay Jain caused

Emine is a Nurse at New York Presbyterian - Flushing that ended my mother's life.

While Nurse Manager Andrew Fernandez was OKaying the form of A Jay, who was not on site to accurately see what husband decisions were doing to my mother and they were overdosing her as she pulled out her Intravenous overload that could kill her - Grace Groat said the words "poison" twice and in a very low voice "killing me" this is so horrifying that Grace Groat predicted what would kill her as the side effects of those drugs were obviously taking a toll on Grace Groat's 85 year old body obviously she did the Intravenous wrong.

Boxing Gloves were put on Grace Groat they called mittens but were horrifyingly large and would encompass her whole hand and must have scared and frustrated her to death.

This cruelty abuse and neglect of just taking Grace Groat off the drugs as if alluring her to death would have been humane treatment and proper treatment. Not going against Grace Groat's wishes for an Intravenous pump and not allowing her daughter to be an advocate for her.
